Polycarbonate Quarter Dome Observation Mirror

The DuraVision™ Quarter Dome should be mounted in rooms at right angle corners to provide the 90° vision to prevent surprise attacks and collisions.

The Quarter Dome is ideal for use in situations where space is at a premium. This mirror provides a 90° area of reflection.

FEATURES and BENEFITS

- Mirror quality polycarbonate provides long lasting, quality unbreakable mirror face.
- Distortion free reflective coating for excellent viewing quality.
- Powder coated steel frame for enhanced long life and appearance.
- Unique tamper proof frame is virtually ligature free and very robust.
- Recessed, tamper proof fixings increases security and reduces ligature risk.
- 7mm (9/32") Counterbore holes designed to take security head fasteners such as Rawl Spikes or Torx Screws. (see Ligature Free Design page)
- Optional Foam Insert to fill cavity and enhance strength.
