

DuraVision™ Convex Mirror Product Sheet:

L-Series Acrylic Production Mirror

For overhead observation of process lines and container inspection the DuraVision™ L Series mirrors provides the ideal solution. This range of flat acrylic mirrors, laminated to a rigid substrate for strength and image clarity, can be suspended or mounted directly on ceilings or walls to provide optimal viewing.

Features

- Premium quality acrylic face
- Rigid sealed back
- Aluminium edging
- Interior use only

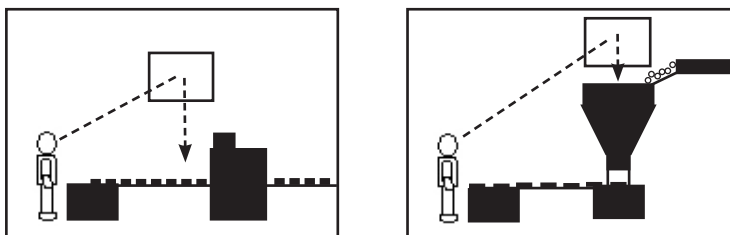

Suitable Uses

- Monitoring processes and machinery
- Preventing production line blockages and jams
- Viewing conveyor belts
- Quality control
