

DURAVISIONTM STAINLESS STEEL DOME RANGE

For Wide Angle Views in Tough Environments, Try The Stainless Steel Dome Mirror Range From DuraVisionTM

▶ Hospitals and Institutions

Stainless Steel Dome Range

These Unbreakable Stainless Steel Mirrors are manufactured from highly polished Stainless Steel and will give a bright, clear, distortion free reflection. Ideal for preventing collisions in harsh industrial situations or in public areas which may be prone to vandalism. The highly polished stainless steel face will resist repeated blows and if attacked with graffiti and spray paint, can be easily cleaned with solvents.

The stainless steel face can also withstand harsh cleaning regimes in the food production industry and meets with strict food and hygiene requirements.

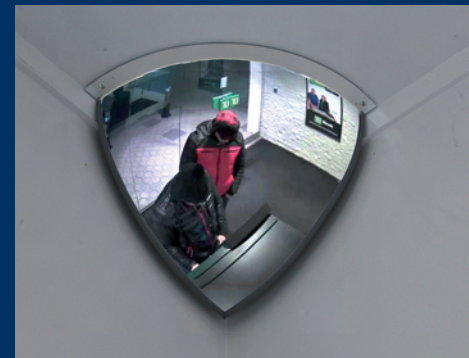

(Mounting Screws are not included). All models available in 500mm size only.

▶ Vandal Prone Areas

Features

- 304 grade (18 gauge) stainless steel mirror quality face
- The deep curve is designed to maximise the wide viewing area
- 7mm holes suitable for security head fasteners
