

DuraVision™ Convex Mirror Product Sheet:

Outdoor DeLuxe Half Dome

The Outdoor DeLuxe Half Dome Mirror is designed for driveway safety when a driver needs to see both left and right before exiting a building to avoid collisions. The lightweight vinyl back and lid is sealed to enclose the cavity and to withstand weather. Ideal for busy forklift loading areas, warehouses, factories and industrial buildings. Also an easy way to observe children around schools or childcare centres for outdoor play areas. Complete with adjustable outdoor J-Bracket, this versatile mirror is one of the most effective ways to improve two-way visibility.

Features

- 2mm acrylic mirror face
- Pure reflective coating
- Vinyl celuka back and lid
- Outdoor weather resistant
- 180 degree viewing area
- Includes Outdoor J-Bracket to fix to wall
- Mounting screws Not included
- Pole mounting kit available

Suitable Uses

- Outdoor Two-Way observation
- Industrial and Forklift Safety
- Outdoor Childcare Observation
- Loading Bays
- Driveways and Carparks
- Pedestrian Crossings and Sidewalks
