

DuraVision™ Convex Mirror Product Sheet:

V-Series Stainless Steel Food Mirror

The impact resistant acrylic face of this food production line mirror makes it ideal for monitoring processes, reducing production costs, bottlenecks and workplace accidents. This product combines the strength and clarity of acrylic, with the durability of stainless steel fixtures. It offers an advanced plastics solution to your surveillance needs.

Features

- Premium quality acrylic mirror face
- ASA Vinyl back
- Stainless steel bracket and fixings (also available in galvanised steel option)
- Orange vinyl extrusion for visibility in the factory setting
- Unique J-Bracket for easy installation and adjustment

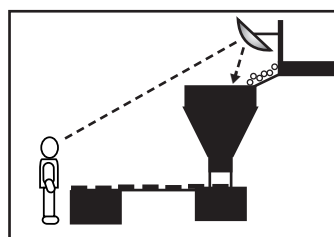

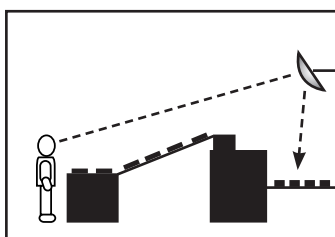

Suitable Uses

- Hygiene and safety environments
- Monitoring processes and machinery
- Regular cleaning regimes
- Prevent production line blockages and jams
